The purpose of the disclosure statement is to provide clients with the information that they need to make an informed decision about whether to vote to accept our plan.

Projected Recoveries: The disclosure statement contains a table of projected recoveries for each class of claims. While recoveries will be based on a number of factors, the largest driver of higher recoveries are our claims against Alameda and FTX.

Wallet Clients: The plan provides for the return of non-estate digital assets held in client wallet accounts in connection with the Wallet Program in full, subject to applicable set offs.

Client Releases: Clients will receive a release from BlockFi for any clawback claims that could be brought against them, including for transfers made prior to the Platform Pause on November 10, 2022.

As a next step in our process, we will be presenting our disclosure statement to the Court on June 20, 2023, for approval. We will have additional information to share about the voting process upon approval of our disclosure statement by the Court.
